

# BEATRIZ DELGADO MENA

DIRECTOR OF PHOTOGRAPHY

## PROFILE

I'm a director of photography with a passion for film and TV dramas and experience in documentaries and commercials as well. After studying a Masters degree in Directing Film and Television at Bournemouth University, I am enjoying tackling the challenges of the professional industry.

Over my academic life I have lived in five different countries and been enriched by their diverse cultures and people. This, coupled with my background in both journalism and media production, has given me a skillset and teamworking ability that has comfortably transitioned my career into drama production. I have experience as cinematographer, assistant camera, loader as well as director and assistant director.
